Birri language books, flash cards and memory cards created by Author and Illustrator Jill Dodd

## Unique Birri language flash cards and memory cards

Author and artist Jill Dodd has created unique educational resources in her new Birri Language Flash Cards and Memory Cards based on her collection of four children's books. Ms Dodd has released variety packets of numbers 1-6, animals and word lists from her books to make a fun learning experience for children. Children can play the Memory Matching Card game with the Birri Language Memory Cards.

These resources promote Birri language, numeracy and literacy skills, encourages observational skills and discussion and also develops hand-eye coordination.

The A6 size cards come in their own drawstring bag.
